

Number: **TS5**

Name: **TS5 Solar Circulating Pump**

Spec: **5,10,15PV**

Memo: **For more detail, please feel free to contact us.**

Class: **Solar Powered Pump**

Product Readme

MODEL	PV MODULE WATTS (W)	MAX HEAD METERS(M)	MAX FLOW(L/M)
TS5 5PV	5	1.4	8.5
TS5 10PV	10	2.3	10
TS5 15PV	15	3	11.5

Product Feature

- §Durable permanent magnetic rotor/impeller and fine ceramic shaft
- §Advanced magnetic drive technology, without any leakage for ever
- §Long life brushless pump, ideal life for 30000 hours
- §Heavy duty work, can sustain continual 24 hours' work
- §Low noise: ≤45dB far from 1m distance
- §Low or no maintenance
- §Low power consumption
- §Can be customized

Specification

- √6V~24V DC
- √Max open flow rate:12L/Min
- √Directly powered by PV panel
- √Brass 1/2" male BSP/NPT Inlet/Outlet
- √Max system pressure: 10Bar
- √Max working temperature: 110°C (230° F)
- √DC brushless motor with energy efficiency technology by micro processor
- √Minmum start-up power consumption less than 2 Watt
- √Soft start at very low in-rush current,good&convenient working directly with PV panel
- √Automatic overload protection
- √Automatic temperature protection

Specifically designed for the following uses:

Hot Water Circulation

Radiant Floor Heating

Solar Applications

Liquid Transfer

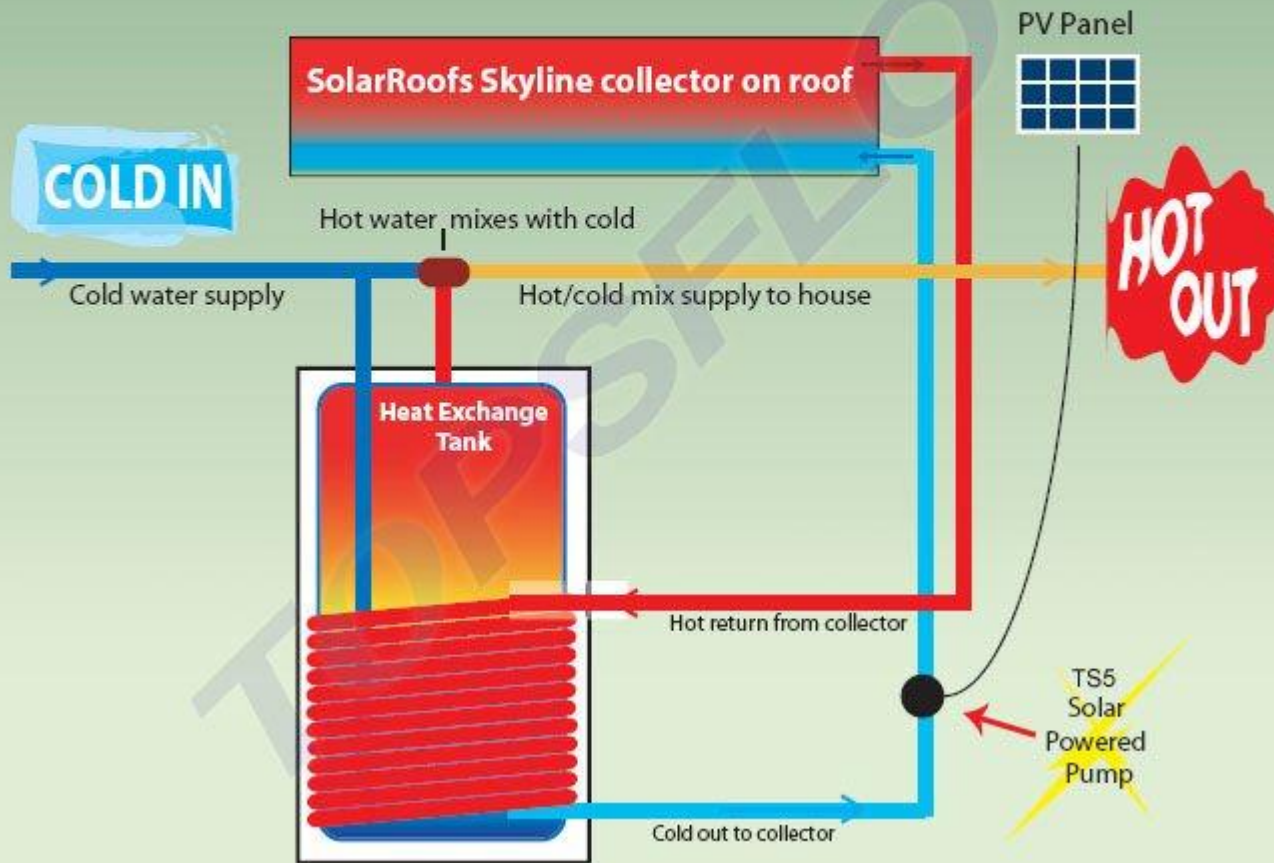

General Purpose Pumping

TOPSFLO
Excellence in Micro Pump, DC Pump

*TS5 Solar Circulation pumps
for Solar water heater systems!*

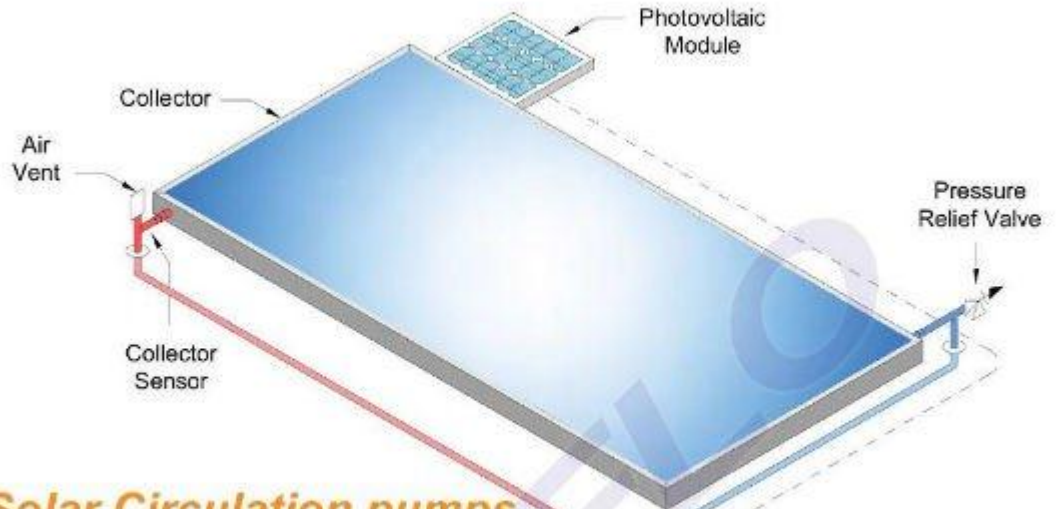

How It Works

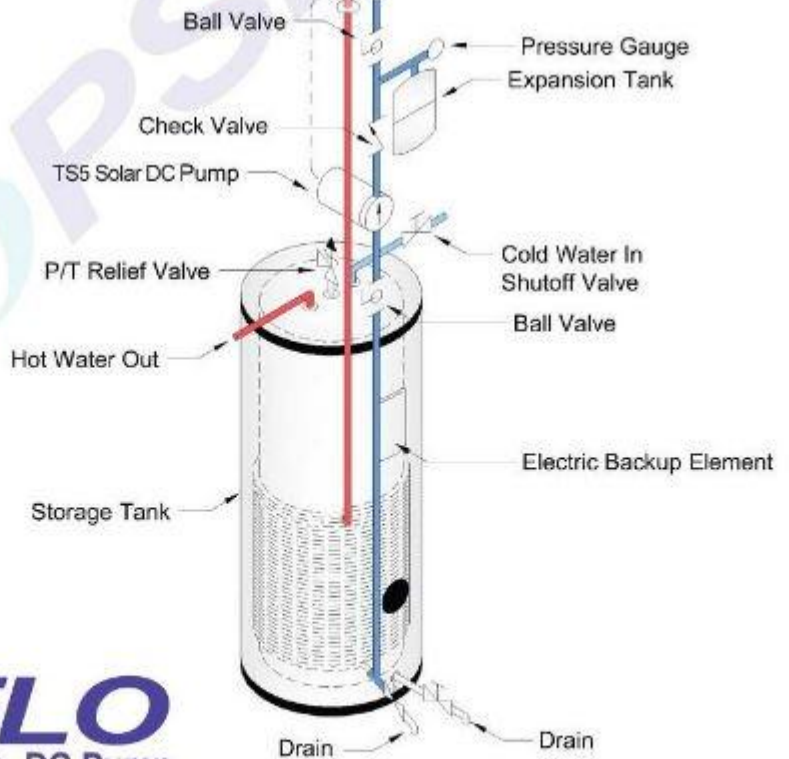

TOPS Micro Pump Technology Co.,Ltd
